Assessor's Office Monthly Report March 2022

During the month of March, the assessor's office was busy processing new and renewal exemption applications for senior citizens and calling every senior citizen to verify the information provided to determine eligibility. Additionally, renewal applications for residents with disabilities, and new veteran exemption applications were all processed – with follow up calls to those requiring further verification. The remaining applications to be processed were new agricultural exemptions which were to be processed in early April.

Assessment modifications were also made on some new homes as well as some properties that had improvements recorded in the building/assessor's office over the last couple years that had not been processed. The first couple weeks of April will have additional assessment modification added to our system, but the backlog of improvements most likely will not be cleaned up in its entirety by the time this year's roll is sent to the County.
